Haida Gwaii is referred to as “Canada’s Galapagos” because of the islands’ unique ecology, and Gwaii Haanas (Place of Wonder) National Park was founded to protect the natural and cultural integrity of the remote southern portion of the archipelago. We guide you on a kayak camping journey through Gwaii Haanas where sea lions lounge on rocky haul-outs, humpback and orca whales glide through channels, and tidal shallows are scattered with brightly colored sea stars. You will stay at camps where Haida paddlers landed their magnificent cedar canoes, and where the rainforest floors are covered with a thick carpet of moss.

- Float through the richest inter-tidal life in the world at Burnaby Narrows;
- Feel the silent power of the standing totem poles at the Skung Gwaii (Ninstints) UNESCO World Heritage Site and hear the story of each pole from a Haida Watchman guide;
- Discover why National Geographic Traveler selected Haida Gwaii “Best of the World – 20 Places You Should See in 2015” and Outside Magazine ranked the archipelago as “Best Islands” in 2014.

The "Green Coast" includes the UNESCO World Heritage Site of Paraty and two ecological reserves that hold some of the world's last intact Atlantic Rainforest. Our paddling trip includes Saco de Mamanguá, Brazil's tropical fjord, and a stretch of coastline dotted with tiny villages, exquisite beaches and waterfall swimming holes. With accommodations at comfortable ecolodges and guesthouses, this boat supported journey blends comfort with a truly unique kayak travel experience.

- Enjoy a special insider tour of vibrant Rio de Janeiro, one of the world's great cities, and now a UNESCO World Heritage Site;
- Explore the Atlantic Rainforest, the Mata Atlântica, and observe first-hand the biodiversity and endemic species of this threatened tropical forest ecosystem;
- Experience for yourself this magical corner of Brazil, a place where nature, fun, and music are never far apart.

We have designed a Galapagos kayaking adventure that virtually defines "trip of a lifetime." These islands, where creatures have never learned fear of humans, will forever change the way you think of wildlife. Traveling from island to island, you'll hike otherworldly volcanic landscapes and have amazingly up close (really up close) encounters with wildlife like giant tortoises, marine iguanas and blue-footed boobies. Explore the turquoise waters by kayak and snorkel with penguins, sea turtles, and playful sea lions. On Halong Bay, we kayak every day, immersed in this vast archipelago's turquoise lagoons and hidden sea caves, stopping to swim in the warm jade-green water and relax on beautiful sand beaches. Food is one of the best ways to go deeper into a culture, and Vietnam's cuisine is a delicious blend of classical Asian with French colonial. We've picked culinary experiences that bring an extra dimension to your visit. Our longest running Baja trips explore an area encompassing the islands of Loreto Bay National Marine Park. A UNESCO World Heritage Site, this area offers a perfect blend of kayaking, hiking and snorkeling. The waters here are favored by Blue and Fin Whales during the winter and spring and by pods of dolphins year-round. Our island campsites provide the best opportunities for marine mammal sightings and encounters. Small coves teem with exotically colored fish while bird life abounds on the islands. Slip into a relaxing rhythm of sunny days, memorable gourmet meals, star filled nights and blazing crimson-gold sunrises. Leave winter behind and discover the warmth of Baja.

ISLA SAN JOSE BAJA'S FORGOTTEN ISLAND

Located offshore from our remote Hidden Coast route, Isla San Jose has beckoned us for years: a skiff supported exploration of this seldom visited wild island is our newest Baja trip. Isla San Jose is challenging to reach; it is off the radar for the vast majority of Baja paddlers and offers an experience that is reminiscent of what Baja was like when we paddled here nearly 30 years ago. It is a classic example of a Sea of Cortes desert island — sandy beaches and rugged peaks cut by arroyos (washes) that provide pathways to explore the Sonoran desert environment. Isla San Jose is a high quality remote paddling trip with the very real advantage of frequent and competitively priced air access through southern peninsula airports of SJD and LAP.

This is Baja kayaking at its best with sun, warm turquoise blue water, margaritas at sunset and great food prepared by your guides. The snorkeling is excellent and the clear warm waters are alive with brightly tropical fish. As an added bonus, this trip is boat supported, so along with an extra level of safety, you'll paddle light kayaks between camps while all the equipment is transported by skiff.

One of North America's great classic kayaking expeditions, our Hidden Coast trip explores the remote shores of the Sierra Gigante Range between Loreto and La Paz. The coast here is spectacular with small picture-perfect coves and arching white sand beaches. The Sierra Gigante mountains provide a dramatic backdrop and the only signs of civilization are an occasional isolated rancho or fish camp. This is a boat supported kayaking tour for the avid paddler. Beautiful campsites, crystal clear coves alive with fish, miles of beachcombing and hikes are only some of the attractions of this spectacular stretch of coastline.

Arroyos hikes provide access to the interior of the island where you'll encounter desert iguanas and big-horned sheep. The waters around the island teem with life, and the snorkeling is exceptional. ESPIRTU SANTO ISLAND SEA LIONS AND WHALE SHARKS

This special trip combines paddling around what is considered one of the most beautiful Islands in the world. Along with great kayaking there are two unforgettable wildlife encounters – a visit to a sea lion colony where you'll snorkel among the colony's playful younger members as they cavort around you, and a great experience snorkeling with whale sharks. These gentle giants are not whales at all but actually the world's largest fish. Docile and unafraid, they allow us to snorkel close enough to observe the pattern of pale dots and stripes on their gray skin. Few people ever have a chance to see, let alone swim with, a whale shark, and it is definitely an experience not to be missed!
